## **MOSCOW Analysis:**

## Read about the MOSCOW Analysis online at: <u>bbd.fyi/moscow</u>

Use this sheet to determine the importance of the requirements of your project. This will ensure that we understand how we will need to prioritize your requirements.

The MoSCoW method is a prioritization technique used in software development to reach a common understanding with stakeholders on the importance they place on the delivery of each requirement; it is also known as MoSCoW prioritization or MoSCoW analysis.

Requirement	Must (M)	Should (S)	Could (C)	Won't (W)

Notes:
